Kindergarten Ducklings….

Kindergartens Duck eggs have arrived! Our boys and girls are very excited and waiting in anticipation for the Duck eggs to hatch. We will keep everyone updated as our eggs start to hatch.

From the Principal

Happy Education Week!!

Don’t forget that this week is ‘Education Week’ and we look forward to your sharing a number of special events with us. Education Week provides us with a great opportunity to showcase the great achievements your children are making at Rooty Hill PS.

Tomorrow, (Wednesday) I hope you will attend our Open Classrooms and then be impressed by our School Concert – always a great experience for our boys and girls. You are welcome to view any of our classes in action – you don’t have to restrict yourself to your own child’s room.

As usual, car-parking outside the school will be a challenge! Please make sure you leave plenty of time to perhaps walk a bit further than usual if necessary!! Later tomorrow Art on the Hill will take place at Rooty Hill High School, commencing at 5.00pm. Artworks created by over 100 of our talented students will be in display.

A great achievement.

Below are listed the names of over 100 students who achieved 100% attendance last term. Thank you Mums and Dads for making sure your children attended school every day and were able to take full advantage of the great educational programs offered here at Rooty Hill.

Care For Your School
Care For Others
Care For Yourself

Dental Checks....

Last Wednesday many of our students from Yrs 3-6 received a free dental check from Western Sydney Health. Students also participated in a short oral health lesson. Parents will receive information in coming weeks regarding any further treatment students may require.

Year 1 Excursion....
Muru Mittigar

Last Friday Year 1 students visited Muru Mittigar Aboriginal Cultural and Education Centre in Penrith. Students learnt many interesting things about Indigenous Australians. They learnt about symbols and types of materials used to create artworks before making their own piece. Students had the opportunity to practise their boomerang throwing technique and see how an expert throws a boomerang. They also learnt about tools used by Aborigines to hunt and to protect themselves from harm. Despite a little rain in the morning, Year 1 had a wonderful day on our excursion.
